Primordial scalar spectrum
Starobinsky: numerical Mukhanov-Sasaki
leading-order slow roll
quadratic: numerical Mukhanov-Sasaki
leading-order slow roll
$\mathcal{P}_\mathcal{R}(k)$
k [Mpc^{-1}]
Next-to-leading-order correction (thin: tensors)
numerical / leading-order slow roll
scalar, Starobinsky
scalar, quadratic
k [Mpc^{-1}]
Primordial tensor spectrum
$\mathcal{P}_t(k)$
Starobinsky: r = 0.0035, n_s = 0.9653
quadratic: r = 0.1378, n_s = 0.9650
k [Mpc^{-1}]
