Halo mass functions from linear theory + collapse ansatz
ST, z = 0
PS, z = 0
ST, z = 1
PS, z = 1
dn/dlnM [Mpc^{-3}] (comoving)
halo mass M [M$_\odot$]
Both normalised to unit mass fraction
Sheth-Tormen
Press-Schechter
multiplicity function f(ν)
ν = δ$_c$/σ(M)
